

# A Radical Proposal for a Free Society and Sane Economy

In a world that is increasingly divided and polarized, it can be difficult to imagine a different way of organizing our societies and economies. But what if there was a way to create a more just, equitable, and sustainable world?

That's the question that Dr. Thomas Greco tackles in his new book, *Radical Proposal for a Free Society and Sane Economy*. Greco argues that the current system is broken and that we need to find a new way forward. He proposes a radical new vision for a society that is based on cooperation, sustainability, and equality.

Greco's book is a challenging and thought-provoking read, but it is also a hopeful one. He offers a clear and concise roadmap for how we can create a better world. If you're interested in learning more about alternative economics, social justice, or environmental sustainability, then I highly recommend reading this book.

## Basic Income: A Radical Proposal for a Free Society and a Sane Economy by Dr. Debra L. Brown

## Here are some of the key ideas that Greco explores in his book:

- The current economic system is based on exploitation and inequality.
- We need to find a new way to organize our economy that is more sustainable and just.
- Cooperation is essential for creating a free and sane society.
- We need to reduce our dependence on fossil fuels and transition to renewable energy.
- We need to create a more equitable distribution of wealth and income.

Greco's book is a timely and important contribution to the debate about the future of our society. It is a must-read for anyone who is interested in creating a more just, equitable, and sustainable world.

## About the Author

Dr. Thomas Greco is a professor of economics at the University of California, Berkeley. He is the author of several books on economics and social justice, including *The End of Capitalism (As We Knew It)* and *The Economic Consequences of Inequality*.
