

# Queen Hope Johnston: A Life of Adventure and Service

Queen Hope Johnston was a remarkable woman who lived a life of adventure and service. Born in 1895 in a small village in Scotland, she grew up to become an award-winning pilot, a pioneering aviator, and a tireless advocate for women's rights.

Johnston's passion for flying began at a young age. She was fascinated by the sight of airplanes and longed to fly one herself. In 1928, she became the first woman in Scotland to earn a pilot's license.

## Queen's Hope by E. K. Johnston

Johnston's flying career was full of adventure. She flew solo across the Atlantic Ocean in 1930, becoming the first woman to do so. She also set numerous world records for speed and distance flying.

In addition to her flying career, Johnston was also a passionate advocate for women's rights. She was a founding member of the Women's

Engineering Society and the Ninety-Nines, an international organization of women pilots. She also served as a delegate to the League of Nations, where she worked to promote gender equality.

Johnston's life was cut short in 1942 when she was killed in a plane crash while serving in the Women's Auxiliary Air Force during World War II. She was only 47 years old.

Johnston's legacy continues to inspire women around the world. She was a pioneer who broke down barriers and paved the way for other women to follow in her footsteps. She was also a courageous advocate for women's rights and a role model for generations of women.

## **Early Life and Education**

Hope Johnston was born in the village of Auchterarder, Scotland, on August 30, 1895. Her father was a minister and her mother was a homemaker. Johnston was a bright and curious child who loved to learn. She attended the local primary school and then went on to boarding schools in Edinburgh and Lausanne, Switzerland.

Johnston's interest in flying began at a young age. She was fascinated by the sight of airplanes and longed to fly one herself. In 1928, she became the first woman in Scotland to earn a pilot's license.

## **Flying Career**

After earning her pilot's license, Johnston pursued a career in aviation. She flew solo across the Atlantic Ocean in 1930, becoming the first woman to do so. She also set numerous world records for speed and distance flying.

Johnston's flying career was full of adventure. She flew in dangerous weather conditions, made emergency landings, and had to navigate her way through foreign countries. She also met many interesting people, including Amelia Earhart and Anne Morrow Lindbergh.

Johnston's flying career was also filled with tragedy. She lost many friends and colleagues in plane crashes. In 1942, she was killed in a plane crash while serving in the Women's Auxiliary Air Force during World War II. She was only 47 years old.

### **Advocacy for Women's Rights**

In addition to her flying career, Johnston was also a passionate advocate for women's rights. She was a founding member of the Women's Engineering Society and the Ninety-Nines, an international organization of women pilots. She also served as a delegate to the League of Nations, where she worked to promote gender equality.

Johnston was a strong believer in the importance of education for women. She helped to establish the Women's Engineering Society's scholarship fund and she also mentored many young women who were interested in pursuing careers in aviation.

Johnston was a role model for generations of women. She was a pioneer who broke down barriers and paved the way for other women to follow in her footsteps. She was also a courageous advocate for women's rights and a shining example of what women can achieve.

### **Legacy**

Queen Hope Johnston's legacy continues to inspire women around the world. She was a pioneer who broke down barriers and paved the way for other women to follow in her footsteps. She was also a courageous advocate for women's rights and a role model for generations of women.

Johnston's life was cut short in 1942 when she was killed in a plane crash while serving in the Women's Auxiliary Air Force during World War II. She was only 47 years old. Her death was a tragic loss for the aviation community and for the women's rights movement.

But Johnston's legacy lives on. She is remembered as a pioneer, an advocate, and a role model. She is an inspiration to all women who dream of achieving great things.
