

# Underage Drinking: Say No!

By Dr. Sarita Uhr

Underage drinking is a serious problem with potentially devastating consequences. According to the Centers for Disease Control and Prevention, underage drinking is the leading cause of preventable death among youth in the United States. Each year, approximately 5,000 young people under the age of 21 die as a result of underage drinking. In addition, underage drinking can lead to a number of other health problems, including liver damage, heart disease, and cancer.
